### EPOXY PRIMER/SEALER BLACK

PC-50B Epoxy Primer/Sealer Black is a premium quality, corrosion resistant, two component isocyanate free primer and sealer. This product offers superior adhesion to properly prepared bare metal, fiberglass, and aluminum surfaces. PC-50B Epoxy Primer/Sealer is a lead and chromate free formula, that exhibits excellent drying and color holdout characteristics with no shrinkage. This product can be reduced to be used as a corrosion resistant sealer in a wet on wet application.
